Datasym POS Inc. Interfaces to Global Payments Canada

Brantford ON, January 23, 2012- Datasym POS Inc. Interfaces with Global Payments Canada. Global Payments Canada is a provider of electronic payment services across a multitude of industries.

To interface with Global Payment Canada, part of the requirement was for Datasym to pass Global Payment's Certification process. Datasym used the Verifone Vx570 pin pad, which is common to many Canadian retail locations, for this specific integration. By interfacing to Global Payments Canada, Datasym's Canadian retailers have yet another option for an integrated electronic payment solution. Global Payments Canada supports Debit and Credit with card swipe and EMV. The pin pads have the capability to add additional ways of accepting cards, such as Pay Pass, without requiring changes to be made at the Datasym terminal.

Datasym POS Inc. is a leading edge Point of Sale company based in Brantford, ON Canada with distribution facilities in Niagara Falls, NY. Datasym develops hardware and software solutions for small to large companies across a multitude of industries.
