Datasym Expands its Peripherals Selection to Include Godex Barcode Printers

Brantford ON, May 1, 2012- Datasym introduces Godex Barcode printers, available in two models the EZ-DT2 and EZ-DT4.

Datasym has expanded its peripherals selection to include barcode printers. By pairing the either the EZ-DT2 or EZ-DT4 model of the Godex printer with Datasym's XR or EliXR series terminals barcodes can be printed directly from the point of sale system. Datasym PRO-Software enhances the simplicity of barcode printing as a back end PC is not required for printing the labels.

These industry standard printers are compatible as a standalone printer for both Datasym's EliXR and XR series terminals. They can be used for most retail barcode or shelf label printing requirements.

Datasym POS Inc. is a leading edge Point of Sale company based in Brantford, ON, Canada with distribution facilities in Niagara Falls, NY, USA. Datasym develops hardware and software solutions for small to large companies across a multitude of industries.
